Warranty

FOURSEVENS warrants its products to be free from defects in materials and workmanship. We will repair or replace, at our option, without charge, any product or part which is found to be defective under normal use and service within 120 months from the date of purchase with proof of purchase. Such repair or replacement shall be the purchaser's sole and exclusive remedy under this warranty. This warranty does not cover normal maintenance and service and does not apply to any products or parts which have been subject to modification, misuse, abuse, negligence, accident, or improper maintenance or repair by anyone other than FOURSEVENS.

To initiate a warranty claim, please create an account with us at www.FOURSEVENS.com, then email us at customerservice @4sevens.com with a brief description of your issue.

FOURSEVENS

NAVI SMART

OPERATOR'S MANUAL

Operation

Congratulations you now own one of the smartest flashlights that exists. And it fits on your keychain!

The Navi is simple to operate. A quick press of the button turns it on. Another press and it turns off. While the light is on, double click to change modes.
Also you can press and hold and the light will turn on and will stay on until you release the button.
The Navi works with the FOURSEVENS Smart Flashlights App which you can download from the AppStore. The App will allow you to check the current battery life, remaining runtime, configure the modes, and set proximity alarms.

With the proximity alarm, you can make the Navi a "wireless leash" to tether your phone with Navi. You can attach the Navi with anything you wish you keep track of. When your Navi and phone separate, the App will alert you and note the current GPS location and the Navi will flash and beep. You can also manually trigger the alarm to help find your phone using the Navi by triple clicking the button. You can also trigger the Navi to flash and beep using the App to help find your keys.

More advanced options are available - see
www.foursevens.com/navi.

Specifications
